

COMMUNITY CATCH UP

AUGUST 2021

A New Year of Opportunity!

Communities In Schools of Milledgeville/Baldwin County experienced a sad yet wonderful summer this year. Jan Morgan retired at the end of June, and her presence in the office and devotion to helping students will be greatly missed! As Jan prepared to leave, however, Janet Cavin stepped into the role of Executive Director. Janet has been and will continue to be a blessing to CISMBC and to all of the students we serve. CISMBC also had an excellent summer intern, Caroline Hull, who assisted with readying the Telehealth program for this school year. She will be serving as an AmeriCorps member with us this year.

CISMBC began the school year with a HUGE donation of uniform items and backpacks from Northridge Christian Church as well as a generous donation from 100 Women Who Care of \$5,500. We are beyond grateful for this support from our community.

This year, CISMBC is already partnering with GC professor, Dr. Kaninjing, and his Community Health class to place volunteers in the Baldwin County schools for service learning. Additionally, we are partnering with three Student Service Opportunity Award students who must each complete 100 volunteer hours this semester. Furthermore, we are working with two GC students to complete degree-specific practicum programs and are looking forward to all they will accomplish.
